

We invite you to join us in making a difference in the life of a hearing impaired child! The Turn It Up Foundation, created in honor of my son Caleb, will provide funding to deaf and hard of hearing children for musical pursuits, such as piano lessons, band instruments, and more.

Caleb is completely deaf in both ears, but through the miracle of cochlear implants, he leads a full and productive life. In addition to being an excellent academic student, CPR certified Boy Scout, active church youth group member, and having a hilarious sense of humor, Caleb is also very musically talented and plays both percussion and keyboard – listening to him play the piano has brought many to tears of joy. He is our superstar and hero, and it is our wish that others will be inspired by Caleb too!

We are proud to partner with the Alexander Graham Bell Association for the Deaf and Hard of Hearing (AG Bell) in this endeavor. AG Bell works to advance listening and spoken language for people who are deaf and hard of hearing. They work with children, health care providers, families and professionals on the importance of early diagnosis, and on helping children who are deaf acquire hearing aids or cochlear implants and learn to speak so they can prosper in mainstream society.

On behalf of all the children that will benefit from the Turn It Up Foundation, thank you for your generosity.

Chuck Dillehay, President
Dillehay Management Group/Skin, Bones, Hearts & Private Parts
